Man for man, power for power, Judge Parker is fully Mr. Roosevelt's equal, and so far as the future is concerned, judged by the past, the people of America have the greatest possible opportunity and the least possible danger, if, under the constitutional laws, they are allowed to govern themselves with Judge Parker at the helm. But, and if President Rooseveit is elected and given full opportunity for the free exercise of his unbridled ambition and craze for personal government, we can gain nothing at home or abroad that will begin to compensate us for the loss of the people's control of our own government, which has made us what we

We ask our contemperary if it believes that in this case Mr. Gould acted the part of a highway robber, or the part of a brute refusing to save a drowning man except for his price, or a money shark preying upon widows and orphans, or a flend demanding his pound of human flesh? In his annual report the health commissioner of Baltimore city pays especial attention to the prevention and cure of tuberculosis. "It is well known," says he, "that tuberculosis causes more deaths than rinallpox, diphtheria, scarlet fever. typhoid fever, measles, mumps and whooping cough combined. In the United States it is estimated that about 12 per cent. of the total deaths are due to tuberculosis. In Baltimore the past five years there was a total of 51,716 deaths. Of this number 5,553, or 12.67 per cent., were from consumption."

After having criticised and ridiculed and dencunced President Roosevelt to the full extent of its capacity, the New York Sun announces that it will support him for the presidency as opposed to Judge Parker. Without meaning to be offensive, it is our deliberate opinion that this course of the Sun will improve Judge Parker's chances of election.

Swanson's Popularity.

Editor of The Times-Dispatch:

Sir.-I notice the head-line on the third page of your Sunday edition, that reads "Swanson Lost His Grip." This was an astonishing head-line to us North Carolinians, who have kept our eyes on this man Bwanson since he first entered Congress. The idea of Claude Bwanson losing his grip on anything was surprising to us. We were gird to see on reading it that it did not mean his strip on the hearts of the people of old Virginia. Sometimes it does people good to know how well thought of her public men are by sister States, and just here I want to say that the people of this part of this man Swanson, and they believe that he is the workingest piece of Democracy they have yet seen in harness. Somethow I wish the Timps-Dispatch had used another word than "grip" in the head-line.

Yery truly, Swanson's Popularity.

Very truly, GEORGE P. PELL.

save terms which adequately describe its beauty. The adjectives in common use were all exhausted by our party before we found ourselves fairly within the borders of the "Land of the Sky." On beholding its perfect loveliness we experience "what we can ne'er express, yet cannot all conceal."

From Henderson to Brevard the Transsylvinia road carried us through an exquisite valey id the delightful little town of Brevard, which nestles in content among the blue hills.
